PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER

Mar 2025 – Feb 2026

Timeless Soul Inc. – Maryland, Lagos, Nigeria

- Developed and maintained responsive user interfaces using React, Typescript and JavaScript.
- Built and refined frontend layouts to ensure consistent performance across desktop and mobile devices.
- Improved website accessibility and responsiveness by implementing user-focused interface and layout enhancements.

- Participated in code reviews and incorporated development feedback to maintain quality and consistency across projects.
- Collaborated with team members throughout the development process to deliver frontend features and improvements.

WEB DEVELOPER TUTOR (PART-TIME)

Aug 2024 – Present

Kids That Code Nigeria — Lagos, Nigeria

- Delivered web development lessons to students, introducing core concepts in HTML, CSS and JavaScript.
- Guided learners through practical coding exercises and beginner-friendly web development projects.
- Explained responsive design principles and supported students in building functional web pages.
- Provided feedback on student projects and helped learners improve their coding, and debugging skills.
- Encouraged collaborative learning and supported students in developing confidence with web technologies.

WEBSITE DEVELOPER

Mar 2023 – Feb 2024

Querus Consults — Lagos, Nigeria

- Developed and launched a website, aligning the frontend implementation with the client's business objectives.
- Enhanced website functionality and UX through the integration of relevant features and plugins.
- Worked closely with the design team to translate visual concepts into functional web interfaces.

PROJECTS

Parents Teens Summit 2026: Developed the frontend for the Summit's website, creating responsive, accessible page layouts and user interfaces that support easy navigation across devices. <https://pts26.netlify.app>

Parents Teens Summit 2025: Built a responsive event website to present summit information clearly across desktop and mobile devices. <https://pts25.netlify.app>

Foyprufe Enterprise: Delivered frontend development services for a contract client website. It was a responsive and professional web presence aligned with the client's requirements. <https://foyprufe.com>
